EDUCATION

History, B.A.
**University of California,
Los Angeles**
📅 2020
📍 Los Angeles, CA

Software Engineering
Flatiron School
📅 2023
📍 Remote

SKILLS

- JavaScript (ES6, React.js, React Router, Redux, Next.js, JQuery, Typescript)
- HTML/CSS
- Python (Flask)
- SQL (PostgreSQL, MySQL)
- Version Control (Git)
- CI/CD
- AWS
- Bootstrap
- Node.js
- Express
- Mongo
- Responsive Web Design
- Relational Databases
- SEO (Search Engine Optimization)
- RESTful APIs
- OOP (Object-Oriented Programming)
- Data Structures
- Bcrypt (Authentication and Validation)

OBJECTIVE

Driven software engineer with a proven background in team-oriented, fast-paced, and goal-driven environments. Equipped with a bachelor's degree from UCLA and comprehensive training from the Flatiron School's intensive software engineering program, I bring a diverse skill set centered around critical thinking, problem-solving, and adaptability. Committed to continual learning and professional growth, my passion lies in enhancing user experiences and consistently delivering high-quality work that contributes to the success of your team.

WORK EXPERIENCE

Software Engineer

logear

- 📅 October 2023 - Present 📍 Remote
- Directly managed and maintained database containing 1200+ products and offerings using MySQL Workbench, maintaining sole responsibility for creating and updating product descriptions, pricing, and other critical information.
 - Collaborated with the marketing department in order to create web pages for new product offerings based upon design mockups.
 - Tackled a variety of additional technical challenges, spanning from SSL certificate management, domain configuration, management of server-side resources, and troubleshooting of bugs.

Shift Lead

Mesa Rim

- 📅 January 2021 - January 2023 📍 Reno, NV
- Led and trained a customer-facing team, emphasizing attention to detail, customer satisfaction, and proficiency in procedures, policies, and skills.
 - Contributed to the organization and execution of a wide variety of events, ranging from local climbing competitions to USA Climbing's Youth Nationals.

Front Desk Supervisor

Sender One

- 📅 January 2015 - September 2020 📍 Los Angeles, CA
- Ensured quality experiences to 1000+ clients per day in a fast-paced, customer-centric environment.
 - Developed strong teamwork, leadership, and communication skills, effectively managing stressful situations, and fostering a positive work environment.

PROJECTS

[PeakSync](#)

Database management system tailored to the fitness industry.

- Designed a robust relational database using Python, Flask, and PostgreSQL to manage and store comprehensive business and user data.
- Ensured data security and user privacy by integrating Bcrypt for password hashing, user authentication, and validation.
- Integrated the Stripe API, enabling frictionless transactions and real-time synchronization of PeakSync products and offerings with the Stripe dashboard.

[Shadle](#)

Mobile first, Wordle inspired RGB color guessing game.

- Optimized website for both web and mobile platforms, ensuring a responsive and intuitive user experience with React.js and CSS.
- Deployed PostgreSQL database on AWS and a Python/Flask-powered web service for user account management, stat tracking, and site-wide analytics.
